Course Description And Purpose
This course explores the way religions construct questions like racial difference, racial hierarchies and racial origins. The main emphasis will be on the Judeo-Christian experience but Islam and Eastern religions will also be addressed. The course will look at some of the basic questions posed by religions: Who are we? Where are we from? What are the outer limits of humanity? Do all peoples have the same remote origins?
Course Objectives

Four objectives underlie the course:
- To introduce students to socio-cultural concepts relevant to the understanding of religion and human difference.
- To examine the dynamics of the relationship between religion, race and politics.
- To develop critical thinking skills by analyzing and evaluating theoretical perspectives on attitudes towards racial difference expressed by religious groups.
- To encourage students to contemplate the attitude of religions towards race from a historical perspective while striving to understand what the genetic revolution may mean from religious standpoints.

Learning Outcomes:

By the end of the semester students will:
- Gain an intellectual understanding of the interconnection between religion and race in western and non western cultures.
- Improve on their writing skills through the writing of essays.
- Develop the aptitude of participating in intellectual conversations through presentations and class discussions.

Important Information

Policies
Please review the FIU's Policies webpage. The policies webpage contains essential information regarding guidelines relevant to all courses at FIU, as well as additional information about acceptable netiquette for online courses.

Technical Requirements & Skills
One of the greatest barriers to taking an online course is a lack of basic computer literacy. By computer literacy we mean being able to manage and organize computer files efficiently, and learning to use your computer's operating system and software quickly.
and easily. Keep in mind that this is not a computer literacy course; but students enrolled in online courses are expected to have moderate proficiency using a computer. Please go to the "What's Required" webpage to find out more information on this subject. Please visit our Technical Requirements webpage for additional information.

**Accessibility And Accommodation**

The Disability Resource Center collaborates with students, faculty, staff, and community members to create diverse learning environments that are usable, equitable, inclusive and sustainable. The DRC provides FIU students with disabilities the necessary support to successfully complete their education and participate in activities available to all students. If you have a diagnosed disability and plan to utilize academic accommodations, please contact the Center at 305-348-3532 or visit them at the Graham Center GC 190. Please visit our ADA Compliance webpage for information about accessibility involving the tools used in this course. Please visit Blackboard's Commitment Accessibility webpage for more information. For additional assistance please contact FIU’s Disability Resource Center.

**Course Prerequisites**

There are no prerequisites for this course.

**Required Reading**

Expectations Of This Course

This is an online course, meaning that most of the course work will be conducted online. Expectations for performance in an online course are the same as for a traditional course; in fact, online courses require a degree of self-motivation, self-discipline, and technology skills that can make them more demanding for some students.

Students are expected to:
- Review the how to get started information located in the course content.
- Introduce yourself to the class during the first week by posting a self introduction in the appropriate discussion forum.
- Take the practice quiz to ensure that your computer is compatible with Blackboard.
- Interact online with instructor and peers.
- Review and follow the course calendar.

Course Detail

Course Communication

Communication in this course will take place via email. The email feature is external communication that allows users to send emails to users enrolled in the course including the instructor and other students. Emails are sent to the student's FIU email on record. This is the best method to communicate with your instructor privately.

All students are expected to use their FIU e-mail address/account for course correspondence. Like Blackboard, you are expected to check your FIU e-mail at least every other day for the duration of this course.

All e-mails sent to the instructor should reflect a professional manner and adhere to the following format:
- Subject Line/Heading: Place your question/comment in the subject heading.
- Also identify this class (Web Class 3100),
- Text: The text of the message should begin with Dear Dr. Wuaku. The message should follow and end with the students full name.

Example E-mail: Below is an example of the format I expect from e-mail inquiries. Please remember you can also call me on 305-348-0112 if you need to speak with me.
Dear Dr. Wuaku,

I have a question about the textbook. Do we have to buy it from the bookstore or can we order it online? I look forward to your response.

Sincerely,
Joe Doe.

Please remember you can also call me on 305-348-0112 if you need to speak with me.

**Discussion Forums**

Throughout the semester the instructor will post messages to the discussion board that require a response or activity from each student. Each post will be graded. Each discussion is worth 25 points. To receive all possible points, a posting must be on time, be easy to read, free of careless mistakes, and appropriately address the issue(s) or question(s) presented by the instructor. Also each student must address or respond to viewpoints of at least three others in the class.

Keep in mind that forum discussions are public, and care should be taken when determining what to post.

**Assignments**

The essay questions will be based on the lectures, class discussions, and assigned readings. The purpose of these essays is to test the student’s knowledge of the vocabulary, issues, theoretical perspectives and the ability to apply the ideas covered to the understanding of lived religious experience.

**How to respond to essay questions:**

All essay questions must be thoroughly answered. A thorough response is one that shows evidence of familiarity with the text and the power-point notes and shows the student’s own originality. The points in the essay must be discussed thoroughly and illustrated with practical examples from the readings or the author’s own experiences. The essay must be written in grammatically correct prose. It must be very well structured and organized.

YOU WILL SCORE A ZERO IF YOU SUBMIT WORK THAT IS POORLY WRITTEN.
Read the questions ahead of time. Read the text and power point notes and draft your responses. Read the question again to make sure you are on the right course. Proof read your work before you submit it.

**Quizzes**

There will be a multiple choice quiz or essay assignment after each topic or combination of topics. Each assignment will be worth a total of 25 points. Each essay assignment will consist of 1, 2, 3 or 4 essay questions out of which a student will be required to answer a specified number of questions. If the chosen question has sub-divisions [e.g questions 1 a, 1 b, etc] the student must address all questions in the subdivisions to be awarded full points for the question. A student has only 3 attempts at answering the multiple choice questions. The highest score will be recorded.

In order to mitigate any issues with your computer and online assessments, it is very important that you take the "Practice Quiz" from each computer you will be using to take your graded quizzes and exams. It is your responsibility to make sure your computer meets the minimum hardware requirements.

**Final Grade**

The Final Grade will be determined by a tally of points scored throughout the semester. These points will be converted into percentages [that is, Points scored by student/total number of points [200] x 100]. Please keep printed copies of all assignments and graded material. If you cannot produce your class material in a grade dispute, the grade recorded in the instructor's grade book will take precedent.

Students are required and responsible for all assigned text readings and material from Blackboard. Students are expected to check the Announcement and Assignment sections of Blackboard for this class at least every other day. Students who take this course are expected to have the skills necessary to complete all assignments. **Essay Assignments must not be sent as attachments to the professor. They must be posted in the Assignment drop box. I will not grade them if you send them to me as attachments.**

If you have computer technology questions during the semester, you should contact the FIU Computer Help Desk.

**Note:** I reserve the right to alter this syllabus if and whenever necessary.
